### Scientific Advisory Board

#### Director

Ronald Davis, Ph.D.  
*Genome Technology Center  
Stanford University*

Paul Berg, Ph.D.  
*Nobel Laureate  
Molecular Genetics  
Stanford University*

Mario Capecchi, Ph.D.  
*Nobel Laureate  
Genetics & Immunology  
University of Utah*

Mark Davis, Ph.D.  
*Immunology  
Stanford University*

H. Craig Heller, Ph.D.  
*Biology & Exercise Physiology  
Stanford University*

Andreas Kogelnik, MD, Ph.D.  
*Infectious Disease  
Open Medicine Institute*

Baldomero Olivera, Ph.D.  
*Neurobiology  
University of Utah*

Ronald Tompkins, MD, Sc.D.  
*Trauma & Metabolism  
Harvard Medical School*

James Watson, Ph.D.  
*Molecular Genetics  
Nobel Laureate  
Human Genome Project*

Wenzhong Xiao, Ph.D.  
*Computational Genomics  
Stanford University  
Harvard University*

### Foundation Board

**Executive Director,**  
Linda Tannenbaum  
**Treasurer,** Kimberly Hicks  
**Secretary,** Patricia Linsley

Tina Orkin  
R.P. Channing Rodgers, M.D.  
Deborah Rose, M.D.  
H. Kenneth Walker, MD, Ph.D.

### Our ME/CFS Scientific Advisory Board

- Experience
- Expertise
- Collaboration

Directing our research to follow patterns of success.

### Our Foundation Board

- Experience
- Dedication
- Service

Giving their time and expert advice to guide us to innovative solutions.

OMF is a nonprofit charity foundation. We fund and conduct research into ME/CFS (myalgic encephalomyelitis / chronic fatigue syndrome), a disease that afflicts up to 2.5 million Americans and many more worldwide, with 25% of them homebound or bedbound.

This research is expected to find diagnostic biomarkers and shed light on similar diseases, such as fibromyalgia, Lyme disease, autism, Gulf War illnesses and atypical MS.

### International Impact - International Scope International Support

#### Accomplishments since 2012:

- Awarded an Edward P. Evans grant
- Awarded a VMware Foundation grant
- Funded 3 completed studies and 3 current studies

#### Services Offered:

- Newsletter
- Presentations
- Giving hope to a desperate and neglected population

### Current Research Priority:
